SAMPLE INFORMATION – SAMPLE 4			
Sample Description (To be displayed on Certificate of Analysis)			
Sample Type (oil, drink, isolate, etc.)		Sample Code (batch/lot no., etc.)	
Approximate Quantity Sent		Size of Consumer End Product	
Density (if applicable and known)		Expected Levels (e.g., CBD contents)	
Service Required	HPLC-DAD/UV: 1 working day <input type="checkbox"/> 2 working days <input type="checkbox"/> 5 working days <input type="checkbox"/> 10 working days <input type="checkbox"/> LC-MS/MS or combined: 10 working days <input type="checkbox"/>		
Additional Requests (per serving units, additional statements, etc.)			

SAMPLE INFORMATION – SAMPLE 5			
Sample Description (To be displayed on Certificate of Analysis)			
Sample Type (oil, drink, isolate, etc.)		Sample Code (batch/lot no., etc.)	
Approximate Quantity Sent		Size of Consumer End Product	
Density (if applicable and known)		Expected Levels (e.g., CBD contents)	
Service Required	HPLC-DAD/UV: 1 working day <input type="checkbox"/> 2 working days <input type="checkbox"/> 5 working days <input type="checkbox"/> 10 working days <input type="checkbox"/> LC-MS/MS or combined: 10 working days <input type="checkbox"/>		
Additional Requests (per serving units, additional statements, etc.)			

ADDITIONAL INFORMATION
Once completed please return this for to <a href="mailto:info@phytovistalabs.com">info@phytovistalabs.com</a>
Results are reported as mg per product and %w/w as standard (mg/kg for isolates, distillates etc.). Please request additional per portion units if required for samples such as consumables and gummies.
Additional sample information slots beyond the 5 provided can be added to this document.
While LOQs (Limit of Quantification) per analyte are included on the report, uncertainties will be available on request – Please note Measurement Uncertainty impacts the cut-off level applied. Please enquire for more details.
We request that oil samples are ideally submitted in sample packs. Please enquire for more details.
